

# Cloud Application Protection Service - CAPS Backup and Recovery for Google Workspace Your Strongest Weapon Against Data Loss

Google Workspace does not provide automatic data backup, only offering minimal protection against data deletions, overwrites, and ransomware. As a Google Workspace customer, you are responsible for ensuring the necessary protection of your data.

Protect your data with the world's only independent cloud specializing in SaaS data protection.

#### **Recover in minutes**

Easily search your Google Workspace applications to restore data in seconds, even if a full disaster recovery is required. You can recover everything, whether it's an email, a single user, or an entire user account.

## **Secure your Data**

The moment you create a backup of your data with SEP CAPS, it is stored in an immutable state, thus protected from ransomware. Our blockchain-verified storage and file system ensure unparalleled security.

### Easy setup

Enjoy the benefit of a simple set-and-forget installation that requires no time-consuming training. You pay a flat fee per user with no hidden costs, including unlimited data storage. As your needs grow, your environment can be easily tailored accordingly.
